So Who Are We...And What Do We Do?

Sign Spinner Advertising was created with one goal in mind... to provide **cost effective unconventional advertising** that truly gets results! With so many lackluster advertising mediums constantly bombarding us, we as consumers tend to drowned out traditional advertising every day.

The Solution...

Our **Brand Ambassadors (BA)** promote your brand, product, service or message using a highly-visible innovative marketing alternative called **Sign Spinning**. In addition, our **Sign Spinners** are dynamic and intriguing individuals who constantly engage and interact with consumers to promote **your brand**. Whether it's a Sign Spinner simply waving to a passing vehicle or a Sign Spinner performing a perfectly choreographed one-handed double misty flip with a precision landing, our Brand Ambassadors are interactive advertising conduits that **get results for your business!**

Word On the Street...

Orci Marketing Group's sign spinners distinguish themselves from the rest, raising the bar for live sign standards. Consistently energetic and engaging, they provide an ideal first impression and make it impossible to drive by without noticing their message. I am more than pleased with their work and will continue using their services for the foreseeable future.

Shannon D. (Marketing Specialist)

We have had such a positive response from the community! We have had strangers call to become patients after watching our sign spinner, as well as strangers stopping in to say how great he was doing! We look forward to having him with us each day!

-Melissa C.

I had never done business with Orci Marketing and was skeptical about trying live signs at our grand opening because in the past they had been so hit and miss. But Eddie and his crew were fabulous. They were energetic, dressed nicely and stayed that way the whole two-day shift. They delivered great traffic to the community. We have since used them for several other events.
